

ACCELERATE YOUR CLOUD TRANSFORMATION INITIATIVES WITH 24X7 SYSTEMS

DEFINE THE FUTURE STATE OF YOUR ENTERPRISE APPLICATION & DATA PLATFORMS IN 6 WEEKS AT \$60,000*

End to end solution architecture definition, using industry standard cloud services like Kubernetes, Microservices, Data Lake House, Datawarehouse, etc on popular cloud & analytics platforms like AWS, Google Cloud, Microsoft Azure, Databricks, Snowflake et al. to drive tech driven business outcomes

Key Activities:

- Collaborate with key business & IT stakeholders to understand strategic objectives, pain areas, needs, that will be solved with cloud solutions
- Derive envisioned Cloud Architecture with best fit cloud/data tech stack
- Identify key business use cases for app & data solutions
- Develop modernization plans with clearly defined roadmap, scope, schedule and cost

Value Levers:

- **2x times** faster architecture & solution analysis using **24X7 System's Proven Consulting Framework**
- Derive realistic effort & cost estimates using **predefined estimation templates & approaches**

Engagement Outcome:

- Future State Cloud Architecture aligned to the Business vision & goals
- Detailed Project Plan to define the project specifics and execution approaches for the mid to long term
- Recommendations & Industry Best Practices to meet the identified requirements and mitigate any process gaps

Customer Contribution:

- One Business Unit / Division
- All projects documents or materials must be provided during architecture assessment phase
- Environment access provisioning aligned to engagement schedule (Applicable for Migration engagements)
- 100% customer stakeholder availability to liaison the staged interview process, reviews and approvals

24X7 Value Guaranteed!

5X Acceleration of Modernization & Migration initiatives using our Solution Accelerator platforms – Gravity, DataSwitch

Special Offer:

FREE POC in modern data stack - Access to Reusable Scripts & Templates, On-call Data Architect, Foundational Infrastructure Baseline set up for data services**

*Scope, cost and timeframe is subject to review during the discovery phase

**On-call SME efforts based on the engagement need

CLOUD & ARCHITECTURE CONSULTING FRAMEWORK

DISCOVER

ACTIVITIES

Asses Landscape

- Current Business & Technical Architecture
- Portfolio Analysis
- Needs Vs Wants Analysis

Gap Analysis

- Business Pain Points
- IT Pain Points

Goals

- Enterprise Cloud Platform Goals

DEEP DIVE

ACTIVITIES

Meet the End-users

- Interview/discussions
- Scope/Assumptions for new enterprise platforms
- Requirements Viability Analysis

Solutioning

- Solutioning Approach & Architecture
- Capacity & Sizing
- Modernization Strategy & planning
- High Level Resourcing Plan

DEFINE

ACTIVITIES

Project Charter

- Finalize Implementation Option
- Detailed Project Plan
- Definition of Iterations
- Resource Mapping and Onboarding plan
- High level Time Line & Deliverables

DELIVERABLES :

- Functional Documentation
- Road Map
- Conceptual Architecture

DELIVERABLES :

- Business Requirements Specification
- Discovery Document
- Future state system architecture & POC

DELIVERABLES :

- Project Plan
- Implementation & Engagement Kick Off Presentation
- Recommendation & industry best practices

WEEK 1-2

WEEK 2-4

WEEK 5-6
